

A11-124

Motion

Proposer: JEF Italy/GFE

Title: A11-124: For a common migration and asylum policy

Motion text

From line 124 to 134:

~~2. Mandates the EU and its Member States to ensure the swift and effective implementation of the Pact on Migration and Asylum, which will become applicable in mid-2026, with a focus on operational readiness at borders, fair and efficient procedures, and credible solidarity mechanisms;~~ 2.

~~3. Demands that the solidarity mechanism under the Pact be implemented in a way that ensures genuine responsibility sharing between Member States, with transparent reporting on relocations, financial contributions, and alternative solidarity measures;~~

Requires that, to the implementation of the adopted Pact on Migration and Asylum, the European Union should prefer a strategy founded on mechanisms of genuine internal solidarity and the establishment of safe and legal pathways for entry

~~4. Requires the European Commission to closely monitor the implementation of the Pact and to consider infringement procedures against Member States that fail to comply with their obligations, including respect for human rights;~~

~~;~~

Reason

The European migration strategy should not be anchored to the Member States, as

the Pact on Migration and Asylum is, it should not restrict migrants' rights, nor should it reduce the value of solidarity to the political will of governments
