

A13-100

Motion

Proposer: Mirko Ondras (JEF Switzerland)

Title: **A13-100 to A13new2: Patching the holes in the EU fabric: a federal Switzerland in a federal Europe**

Motion text

From line 102 to 103:

acknowledging that the Bilaterals III package already provides access to key EEA programmes including Horizon Europe, Erasmus+, Digital Europe, and ~~Euratom~~Euratom, and recognizing that this step could be skipped by directly applying for EU membership, which remains the desired end goal;

Reason

I am proposing this development of article 2 in order to make it clear that the EEA is not a necessary step, while keeping the rest of the article and maintain our support of Switzerland joining the EEA.
