# Motion

**Proposer:** JEF Netherlands (decided on: 04/16/2026)

**Title:** **A4-086 to A4 Final: Distancing ourselves from Far-right and Radical-right organisations and individuals (FROIs).**

## Motion text

**From line 88 to 89:**

**6. ~~Decides that forthcoming campaigns and cooperations of JEF Europe shall consider the fight against the far right as a matter priority.~~ Decides that all forthcoming campaigns shall prioritise the fight against the far right and that the participation of the JEF in collaborative campaigns shall be conditional upon compliance with this requirement.**

**6a. Calls on JEF Europe to coordinate national campaigns against the far-right on a European level, including those by other organizations.**

## Reason

The strength of JEF Europe is our network. Many of our national sections are not so big that they are going to invoke a mass movement against the far-right in their country. However, to counter a far-right play book that is more or less the same across Europe, a coordinated response is required. And this coordination is, what JEF Europe is best at. Therefore, it should use this strength to coordinate a pan-European action against the far-right, which also includes other civil society actors which might only operate on a national level but might have more reach than JEF. In

many countries, these exist; they just lack international coordination.
