Private transport may only be used if the Host Section demonstrates that public transit is logistically unfeasible due to scheduling constraints, safety concerns, or a total lack of accessible public transport infrastructure.~~

Hosting Sections may use private transport, such as coaches or shuttle services, where they consider it necessary.

Where private transport is necessary, the Host Section ~~shall prioritise~~may prefer providers that have low-emission vehicle fleets, where available.

Where distances allow, walking ~~shall be~~is encouraged as the most sustainable form of urban movement. **Environmental considerations shall not supersede the need for accessible transport for participants with reduced mobility. In such instances, the most efficient transportation option shall be provided to them.**Accessibility always takes precedence.
