Motion

Proposer: Reinis Gi?s

Title: **A1-036: Regarding the European Federal Parliament**

Motion text

From line 35 to 42:

1. A federal bicameral system shall be established, in which the current European Parliament ~~is transformed~~serves as into the ~~Chamber of~~lower house representing European ~~C~~citizens, and the current Council of the European Union is transformed into the ~~Federal Senate;~~upper chamber representing the member states;
2. ~~The Chamber of European Citizens shall provide direct democratic representation for the Union's citizens, while the Federal Senate represents the interests of the individual member states to safeguard the balance within the federal framework;~~

From line 50 to 51:

6. The ~~Chamber of European Citizens'~~lower chamber's representatives shall be elected through a mixed proportional list system of one EU-wide list (the so-called
